TO WHOM IT MAY CONCERN

BRIAN ANDERSON and Hospitality Consulting & Services have assisted the Station Hotel Group in operational matters over the past nine months, when our organization needed industry expertise, stability, direction and "going back to basics" to operate our fledgling motel operation in regional NSW.

During this time, Brian has proven to be a very trust worthy hospitality consultant, and his many years of experience in the industry proved invaluable to the staff at the property and gave them the lead and opportunity to "gel" and rise to the challenge of meeting the expectations of a demanding market. His knowledge of hotel systems and controls together with the marketing initiatives that needed to be implemented to bring more business, helped the property Owner in a very positive manner.

I certainly recommend Brian to any hotel/motel Owner as a proven Operator who/will take the business to the next level.

Signed

RICHARD HILI, Group Financial Controller, Station Hotels Group. 22nd July 2008
